

TOPGRADEAG

Grain Monitor System

Remote temp monitoring
made affordable, even on your
smallest bins.

About Us

Meet Glenn Wilde, owner and operator of Top Grade Ag. Glenn offers over 40 years of on-farm experience, and is looking to provide affordable technologies for the modern farmyard.

Our Mission

Enhancing farmer's profitability through cost-effective innovations, and outstanding service.

Ever wonder how we keep our prices so low?

While competitor prices can commonly go over 20k, we ensure affordability without compromising quality.

At Top Grade Ag, we offer installations as low as \$150 per bin.

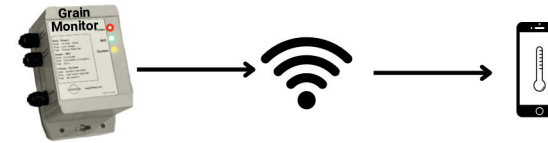

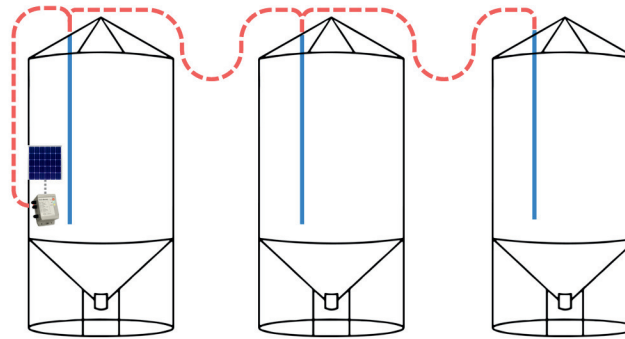

What We Offer

The ability to check your OPI compatible temp cables from your phone, anytime, anywhere. One grain monitor is capable of reading as many as 10 cables on 10 separate bins!

Magnetically mounted at ground level, with a 12 volt power supply. The system utilizes Wi-Fi based communication to reduce subscription fees, and sends real time temp alarms via email or SMS, 24/7

(Wi-Fi, installation, and Temp cables sold separately.)

- Installed by certified TGA Technician
- Training on our control centre app.
- Unlimited tech support for troubleshooting

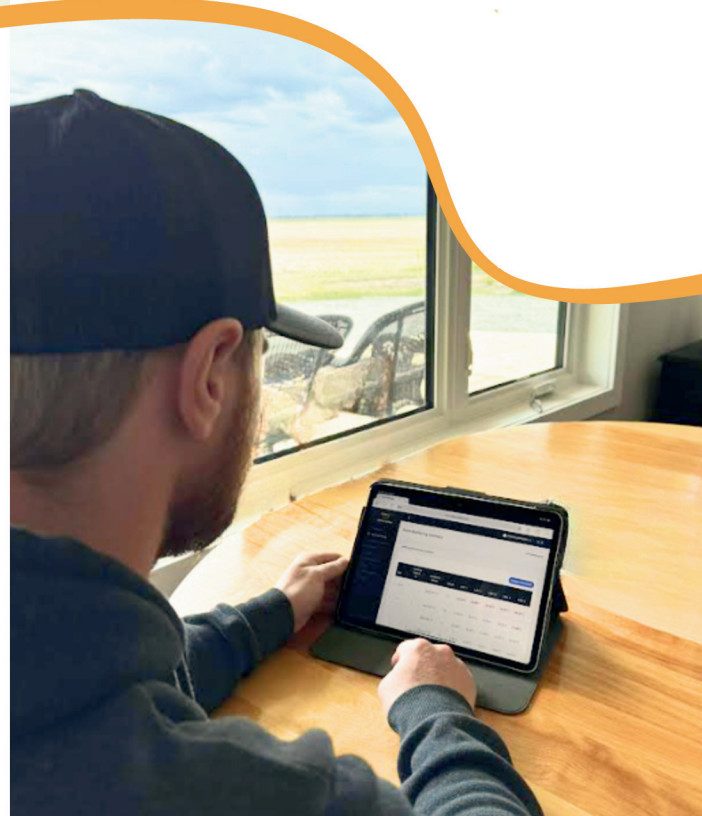

No more sleepless nights

No more frozen hands

No more In-bin spoilage

No more lost cash flow

Get a no
commitment
quote for your
bin yard!

"At Top Grade Ag, we make customer support our top priority!"

-Glenn Wilde, Owner
